## LIST OF SUBSTANTIVE CHANGES AND ADDITIONS

### *PPC's Guide to Audits of Local Governments*

#### **Thirty-first Edition (February 2016)**

##### **Highlights of This Edition**

The following are some of the important new features of the 2016 Edition of *PPC's Guide to Audits of Local Governments*:

- **Expanded Guidance on Governmental GAAP.** With this *Guide*, you will receive guidance and tools you need to properly apply and audit governmental GAAP. Your updated *Guide* includes the nine GASB Statements that have been issued since the 2015 edition of this *Guide*. The new Statements address a variety of topics, including a pronouncement that establishes a new GAAP hierarchy, two pronouncements on pensions, two pronouncements on other postemployment benefits (OPEB), and pronouncements on fair value measurement and application, disclosures for tax abatement agreements, accounting and financial reporting for certain external investment pools and their participants, and new blending requirements for certain component units. Your *Guide* has also been updated for new guidance in the 2015 edition of the AICPA Audit and Accounting Guide, *State and Local Governments*.
- **Updated Guidance on Single Audits.** If you perform Single Audits, you know how complex the auditing requirements are and that they have recently undergone significant changes. Your *Guide*'s text and practice aids have been completely updated for performing and reporting on Single Audits under OMB's *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Your *Guide* has also been updated for the 2015 Compliance Supplement, which includes separate sections of compliance requirements for (a) continuing awards that are not subject to the cost principles and administrative requirements in the Uniform Guidance and (b) new awards or previous awards with incremental funding that are subject to those in the Uniform Guidance. In addition, your *Guide* has been updated for the 2015 edition of the AICPA Audit Guide, *Government Auditing Standards and Single Audits* (previously, *Government Auditing Standards and Circular A-133 Audits*), which, among other important changes, has been expanded to include 10 additional chapters related to the Uniform Guidance.
- **Audit Quality.** Improving audit quality has been a topic of growing interest to regulators, standard setters, and practitioners. This edition of your *Guide* includes a new discussion of audit quality, including projects and initiatives at the AICPA and actions auditors can take in the planning and risk assessment stages of their engagements to improve overall audit quality. As in past editions, your *Guide* and its practice aids, when used properly based on the circumstances of each engagement, give you the confidence that you are complying with auditing standards. Furthermore, as always, your *Guide* is peer reviewed on an annual basis.
- **Updated Disclosure Checklists.** Your *Guide* continues to include the most comprehensive listing of disclosure requirements for governmental entities. The disclosure checklists included in the *Guide* have been updated for all GASB Statements through GASBS No. 80 to help you ensure that the financial statements properly disclose all required information. In addition, the disclosure questions relating to OPEB have been rearranged so you can more easily identify the questions for an employer's financial statements from those for a plan's financial statements.

- **New Practice Aids and Auditor's Reports.** Your Guide includes—

- *New Confirmation and Correspondence Letter.* Your Guide includes a new request for legal representation for use when the client has provided a standing request letter authorizing their lawyer to respond to a direct update request from the auditor.
- *Two New Auditor's Reports.* Your Guide includes two new auditor's reports—a Yellow Book report and a Uniform Guidance report for use when the auditor identifies material weaknesses but no significant deficiencies.
